“Coach Rea Wilkes is the best in the business at helping people understand their own human conditions, concerns, and coaching them through the transition to more successful and fulfilling lives! Get to know Coach Rea!!!”

Kenneth Varga

CEO, Creating Customers, LLC

“Rarely does someone’s paths cross where it makes a difference in one’s life. Rea has the ability to reach to such depths when she interviews someone on her show. She asked me questions that went to my heart and I was able to share with her listeners, things I've never shared on Interviews. I would recommend two types of individuals to Rea's show. For the professional who wants to be interviewed and for the Listener who has a sincere desire to bring themselves to their highest achievements and to grow within themselves. Everyone should be listening to Rea's Radio Show.”
